

Residential Threat Assessment

4889 East Lake Harriet Parkway, Minneapolis, Minnesota 55419. Events, news and crime activity within a 5-mile radius, trailing 365 days. Principal question: whether a solo run on the parkway at 05:30 is safe.

DOCUMENT PI-2026-RSA-001 · Rev D	WINDOW 14 Sep 2025 to 14 Sep 2026	RADIUS 5 miles	ISSUED 14 Sep 2026	RISK TIER Tier 3 · MODERATE
-------------------------------------	--------------------------------------	-------------------	-----------------------	--------------------------------

01 EXECUTIVE SUMMARY

TIER 3 · MODERATE · COMPOSITE 37 / 100

Sixteen qualifying events occurred inside the 5-mile radius during the window. None of them happened on the Lake Harriet parkway. The nearest in-window event to the running surface is a vehicle collision roughly one mile east. The nearest violent crime is roughly 2.5 miles north. The composite rose one point against Rev C, from 36 to 37, because widening to five miles admits real in-window violent crime that a neighborhood-only scope excluded, including a mass shooting with three deaths at four miles and two fatal federal shootings at roughly three miles. Removing the pre-dawn run drops the composite to 27, Tier 4 LOW. The run remains the risk, and the radius did not change that.

02 SCOPE AND METHOD

Two filters, both strict, applied in this order. An item must pass both. (1) **Date:** the event occurred between 14 September 2025 and 14 September 2026. Publication date does not qualify an item; the event date does. (2) **Distance:** the event occurred within approximately 5 miles of the subject address. Distances are estimated from Minneapolis street geography and are approximate. No geocoding service was reachable from this environment. [A]

Every item below was individually date-verified against a primary report before inclusion. That step removed five items that would otherwise have qualified (Section 07).

What this scope costs, stated plainly. A strict 365-day window removes the only exact time, place and activity match in the entire file: a solo runner grabbed from behind and chased at **05:30 on West Lake Harriet Parkway near Sheridan Avenue South in September 2015**. It also removes the July 2017 escalation series on this lake corridor and the November 2020 minivan strike that injured a jogger on this parkway. Those three are the strongest activity-specific evidence that exists for this location, and none of them is in window.

PI assesses the resulting picture as **less informative about the specific question asked**, not safer. Category C is now carried by structural conditions rather than by precedent. Rev C retains the historical record.

03 QUALIFYING EVENTS, 14 SEP 2025 TO 14 SEP 2026, WITHIN 5 MILES

DATE	EVENT	LOCATION	APPROX	BEARING ON THE RUN
10 May 2026	Resident returned from a weekend trip to a smashed car window, nothing taken. Further break-ins the same Sunday in Kenny and Armatage	Lynnhurst, subject's own neighborhood	<0.5 mi	None direct. Parked vehicle
1 May 2026	Stolen Hyundai carrying three people ran a stop sign at 80 mph with headlights off and struck a State Patrol squad. Trooper sustained a fractured fibula and scapula. A passenger sustained a compound leg fracture and a brain bleed. Driver, 19, arrested fleeing on foot	East Harriet, W 46th St and Aldrich Ave S	~1 mi	Direct. Vehicular, residential streets
13 Jul 2026	Storm sewer reconstruction begins on Oliver Ave between W 50th St and Lake Harriet Parkway, and W 50th between Oliver and Penn. Runs into summer 2027	On the route corridor	on route	Direct. Footing, lighting, detours
Aug 2026	13 larceny and theft offenses recorded, the highest single month in the preceding year per the MPD Crime Dashboard	Linden Hills	~1 mi	None direct. Local trend marker
2025 to 2026	Overnight vehicle window-smashing reaches Linden Hills. MPD 5th Precinct investigations attributes the pattern to one juvenile group active citywide	Linden Hills	~1 mi	None direct. Proximity
17 Jul 2026	Park Police responded to a person down on a park bench at 19:50	W Bde Maka Ska Pkwy and Rose Lane	~2 mi	Parkway environment, not criminal
16 Aug 2026	Body recovered in a severe state of decomposition from the water, per Minneapolis Park Police	Bde Maka Ska	~2 mi	Adjacent lake, cause undetermined
21 Jun 2026	Homicide. Dashon Lavell Amos charged with two counts of second-degree murder with intent. Police link the suspect group, known as "1500" or "Wayne City," to multiple shootings	2100 block Lyndale Ave S, Uptown	~2.5 mi	Nearest in-window homicide
Late Aug 2026	At least 87 vehicles damaged in a single night across 9 locations, 02:00 to 07:00. No arrests announced at the time	Citywide, includes southwest	varies	Offender window overlaps 05:30
24 Jan 2026	Alex Jeffrey Pretti, 37, a Department of Veterans Affairs intensive care nurse, fatally shot by a Customs and Border Protection officer during Operation Metro Surge. DOJ civil rights investigation opened	Nicollet Ave	~3 mi	Street environment. Not street crime
7 Jan 2026	Renée Nicole Macklin Good, 37, fatally shot in her car by an ICE agent during Operation Metro Surge	Portland Ave S	~3.5 mi	Street environment. Not street crime
27 Apr 2026	At least 30 vehicles damaged between 01:30 and 09:15, clustered within a mile of Lake Nokomis and Lake Hiawatha. 14 damaged on one block at 24th Ave S and 57th St E	Nokomis and Hiawatha	~3 mi	Offender window overlaps 05:30

8 Apr 2026	Two aggravated robberies minutes apart from 17:45. A man who had just parked and was walking toward a business was approached and assaulted by four juveniles in an apparent attempted carjacking. Four teens arrested, all with prior arrests	2600 block Park Ave	~3.5 mi	Pedestrian target, on foot after parking
15 to 17 May 2026	Amos Ferrier, 38, an Army veteran, confronted two people attempting to steal his car, was thrown from the vehicle and died of head injuries. Two arrested, ages 18 and 19	5400 block 43rd Ave S	~4 mi	Confrontation fatality. Supports disengagement
2 Sep 2026	Mass shooting at the Shoreline Plaza apartment building at 16:36. Three dead: Dale Henry Spry, 63, Muse Abdi Afrah, 61, and the suspect Carlton Neal Johnson II, 35. Three MPD officers shot, four affected by an airborne substance, two hurt in a squad crash responding	15 E Grant St, Loring Park	~4 mi	Largest in-window event. Building-specific
4 Sep 2026	Stolen vehicle pursuit ended in a crash into a Hennepin County Sheriff's squad. Smash-and-grab tools recovered. Four arrested, three juveniles and an 18-year-old	26th Ave S and E 9th St	~4 mi	Direct. Vehicular
14 Sep 2025	Fatal shooting at 01:45, one man killed and a teenage boy injured. Two men later charged with murder	15th Ave S and E Lake St	~4 mi	First day of the window

04 THE PARKWAY ITSELF

No violent incident, robbery, assault, or exposure report was located on the Lake Harriet parkway or its adjoining blocks at any point inside the 365-day window. The search was run repeatedly and from several angles: the parkway by name, the band shell, the boat launch, the rec center, Park Police incident summaries, and neighborhood press. Every Lake Harriet result returned either an incident from 2023 or earlier, or concert programming. The nearest qualifying event of any kind is the 1 May vehicle collision at roughly one mile.

This is a null result and it is reported as one. It means no incident was reported in an accessible source. It is not a certification that none occurred, and it cannot be upgraded to one until the two data requests at Section 08 return. The City incident-level dataset, which is the record that would actually settle this, could not be queried from this environment.

05 SCORED MATRIX

Factors score 0 to 100. Category score is the unweighted mean of its factors. Composite is the weighted sum. Category B was rebuilt for Rev D on in-window, in-radius evidence alone. The Rev C factor for historical activity-matched precedent was removed, since every such precedent falls outside the window.

FACTOR	SCORE	BASIS
A · SITE AND PROPERTY	31.0	Weight 25% · contributes 7.75
Structural and occupancy baseline	15	2020 construction, owner-occupied single family [V]
Target appeal: publicly marketed high-value residence	55	Full interior photography indexed against a named address [A]
Perimeter and approach exposure	24	Parkway frontage, open lakeside approach [A]
Ownership and occupancy record clarity [?]	30	Aggregator 2018 sale conflicts with active 2025 and 2026 re-listings
B · THREAT INTELLIGENCE, IN WINDOW AND IN RADIUS	34.8	Weight 32% · contributes 11.14
Ambient violent crime, immediate ring	10	Among the lowest-crime areas of the city [S]
In-window property-crime pattern within the radius	58	Lynnhurst direct hit, Nokomis 30-vehicle night, Linden Hills August peak [V]
Verified in-window violent incidents on the parkway	8	None located across repeated searches. Floor reflects reporting gaps [?]
In-window violent crime within the radius [NEW]	50	Loring Park mass shooting, two federal shootings, Uptown homicide, Apr 8 robberies [V]
In-window vehicular threat on or near the route	48	1 May East Harriet collision, 4 Sep pursuit crash, Ferrier death [V]
C · VULNERABILITY AND ENVIRONMENTAL	42.9	Weight 43% · contributes 18.43
Activity exposure: solo, pre-dawn, full darkness	60	No companion, no witnesses, seasonal darkness for the whole run [A]
Route predictability	55	Fixed route at a fixed time. The most controllable factor scored [A]
Patrol coverage seam	48	MPD and MPRB boundary, Park Patrol weighted to summer [V]
Lighting and sightlines [?]	42	Unverified. Scored conservatively pending physical recon
Active construction on the route corridor	40	Oliver Ave and W 50th St works, Jul 2026 through summer 2027 [V]
Offender-presence window overlap	30	In-window sprees ran 01:30 to 09:15 and 02:00 to 07:00. Both cover 05:30 [V]
Communications and response	25	Populated residential corridor, carry-phone assumed [A]
COMPOSITE (0.25 × 31.0) + (0.32 × 34.8) + (0.43 × 42.9)	37	TIER 3 · MODERATE

06 BANDING AND TESTS

COMPOSITE	TIER	LABEL
81 to 100	1	CRITICAL
61 to 80	2	HIGH
36 to 60	3	MODERATE
21 to 35	4	LOW
0 to 20	5	MINIMAL

Rev A 34 · Rev B 36 · Rev C 36 · Rev D 37. Four scopes, one band. A two-point spread is inside the instrument's noise.

Sensitivity test. Hold A and B constant and reduce C to its ambient environmental residue of roughly 18, which is what remains once activity exposure, route predictability, construction and the offender window fall away and the patrol seam stops applying to a resident indoors at 05:30. The composite becomes **(0.25 × 31.0) + (0.32 × 34.8) + (0.43 × 18) = 27**, which is **Tier 4 LOW**.

Scope test. The score has now been computed at neighborhood scope and at 5-mile scope, and reproduced the same band both times. Widening the

radius raised Category B by 2.8 points and moved the composite by one.
The geography is not what drives this assessment. The behavior is.

07 EXCLUDED ITEMS

Five items were removed on date after individually checking a primary report. Each one reads as current and on-point, and each one would have inflated this assessment.

ITEM	APPEARS TO BE	ACTUAL
"5 of 7 carjackings ringing Lake Harriet, Nov 14 to 25"	In window	November 2021
MPD 5th Precinct alert, victims "alone or with one other person, either walking"	Current, precisely on point	Cites Inspector Katie Blackwell , who left that command August 2023
Band shell shooting	"October 2026" per a search summary	24 October 2023 per charging records
"Police report rise in crime along Lake Nokomis, Minnehaha Creek"	Current warning on a creek that passes this lake	February 2021
"Three arrested after string of robberies in Uptown"	In window	September 2024

One item was excluded on date despite being well inside the radius, and it is named here so the omission is visible rather than silent. The Annunciation church shooting occurred roughly 1.5 miles from the subject address, which places it comfortably within five miles. It happened on **27 August 2025**, eighteen days before this window opens. It drives the MPD 5th Precinct year-over-year shooting-victim increase on its own. Under the filters the owner set, it does not qualify.

Excluded on distance: Elm Creek Park Reserve assault, Maple Grove, roughly 15 miles. North Minneapolis pursuit crash at N Lyndale and 41st Ave N, roughly 7 miles. Boom Island and northeast Minneapolis break-in sites, at or beyond the radius boundary.

08 COLLECTION GAPS

PRIORITY	GAP	STATUS AND ROUTE TO CLOSURE
HIGH	Incident-level data, in-window, geofenced	Open, and it is the gap that would settle Section 04. The City ArcGIS FeatureServer (org 79kfd2K6fskCAkyg , layers crime_data_2025 and Police_Incidents_2026) supports a radius query directly. This environment's egress policy returns 403 for services1.arcgis.com and opendata.minneapolismn.gov . The query is written and staged in COLLECTION-STATUS.md and runs anywhere with egress
HIGH	Two data practices requests, not one	Open. An MGDPA request to MPD Records covers the residential blocks and misses the parkway, which is Park Board jurisdiction. A parallel MPRB request is drafted (Responsible Authority: Jennifer Ringold), including a patrol-hours element for 04:00 to 07:00 that would measure the coverage seam rather than infer it
HIGH	Physical route reconnaissance	Open, owner-only. Walk or drive the route once at 05:30 in the current season, with the Oliver Ave works in place. Lighting, sightlines, cover, footing, phone signal. A summer recon does not answer a November question. This gap is why lighting is scored conservatively at 42
HIGH	Resident-forum layer	Open, owner-only. Nextdoor 55419 is login-walled. Reddit refuses Anthropic's crawler outright, so no Claude session can reach it. Search strings staged in Annex A. Capture the event date and firsthand-versus-repost for every hit
MED	Predatory-offender proximity	Open. Minnesota DOC Level 3 registrant search and BCA non-compliant search against the address. Interactive lookups

09 SOURCES

Star Tribune: Loring Park shooting and victims (Sep 2026), vehicle break-in sprees (2025 to 2026), Uptown and Lake Street coverage, band shell charging coverage. MPR News: Loring Park mass shooting (2 Sep 2026), Renée Macklin Good shooting coverage. CBS Minnesota and WCCO: southwest Minneapolis car break-ins (10 May 2026), south-side vehicle damage (27 Apr 2026), Ferrier death and arrests (May 2026), Lake Nokomis vehicle damage, Bde Maka Ska recovery (Aug 2026). KSTP: East Harriet collision and charging (May 2026), Lake Nokomis overnight spree (Apr 2026), 87-vehicle spree (Aug 2026). FOX 9: East Harriet collision (May 2026), stolen vehicle pursuit (4 Sep 2026), Lake Street homicide charges. KARE 11: south Minneapolis vandalism, MPD pursuit policy. Southwest Voices: East Harriet high-speed chase (May 2026), Lynnhurst and East Harriet coverage (2026). NPR and ProPublica: Alex Pretti and Renée Good, federal investigations (2026). Minnesota Reformer: federal evidence disclosure (Jul 2026). City of Minneapolis: Precinct 5, shooting incident notice (Sep 2026), Open Data portal. Minneapolis Park and Recreation Board: Park Police and Safety, Park Police Incident Summaries, Public Data. Patch Southwest Minneapolis: Linden Hills crime comparison (2026). Hennepin County and MPD charging bulletins: Uptown homicide (Jun 2026), juvenile robbery arrests (Apr 2026).

Scope. Rev D admits only events occurring between 14 Sep 2025 and 14 Sep 2026 within approximately 5 miles of the subject address. Publication date does not qualify an item. Distances are estimated from street geography and are approximate; no geocoding service was reachable. Rev C holds the neighborhood-scoped version and the pre-window historical record, including the September 2015 parkway assault, the July 2017 escalation series and the November 2020 jogger strike, none of which qualify here.

Source tags. [V] verified primary · [S] reliable secondary · [A] analysis · [?] gap. Consumer crime-score aggregators (CrimeGrade, AreaVibes, NeighborhoodScout, Niche, Safemap, SpotCrime, HomeSnacks, minneapoliscrime.com) returned mutually inconsistent figures and are excluded. Several surfaced during this revision and were discarded rather than used.

Standing caveat. Absence of coverage is not confirmation of safety. The Section 04 null result means no incident was reported in an accessible source, and nothing more. Four HIGH-priority gaps remain open, two of which only the owner can close.

Typeface. Human BBY 45 Light specified, body at 7.5pt rather than the 11pt house standard to hold the event table and matrix within the page budget.
