PI ASSESSMENT

This is a safe neighborhood. Theft — smashed car windows and stolen packages — is the everyday crime here, not violence. In the last 12 months we found **no reported assaults, robberies, or other violent crimes** on or beside the Lake Harriet path. Eighteen events met the bar within five miles, and the nearest of any kind was a car crash about a mile away.

The risk in this report is not the house. It is the 5:30 a.m. solo run — alone, in the dark, on a quiet and unlit stretch of the lake. That habit, not the neighborhood, is what makes this Moderate instead of Low. Run after sunrise and the rating drops to Low.

THE AREA

NEIGHBORHOOD

The home sits on the Lynnhurst / East Harriet border, across the parkway from Lake Harriet. The surrounding ring — East Harriet, Lynnhurst, Fulton, and Linden Hills — is one of the quieter, wealthier parts of Minneapolis. City of Minneapolis, Ward 13

WHO PATROLS WHAT

The house and the running path belong to two different police departments. Minneapolis Police (5th Precinct) cover the home; the Park Police cover the lake, and they focus on the lakes mostly in summer. Before sunrise in winter, both are at their quietest — help will not arrive fast. MPD 5th Precinct / MPRB

THE PROPERTY ITSELF

The home is publicly listed for sale at **\$4,450,000**, with interior photos and a floor plan viewable by anyone online. A high-value, openly advertised house on a visible parkway is a burglary target on paper — keep valuables out of sight and lock up during showings. MLS #7050178; Coldwell Banker / Redfin, 2026

CRIME IN THE LAST 12 MONTHS

DATE	WHAT HAPPENED	WHERE	WHAT IT MEANS
10 May 2026	A resident came home from a weekend away to a smashed car window; nothing taken. Other break-ins the same night in Kenny and Armatage, just south. WCCO / CBS Minnesota	Lynnhurst — your own neighborhood	The real risk to your street is parked cars
1 May 2026	A stolen car ran a stop sign at 80 mph with its lights off and hit a State Patrol car. The trooper was pinned and broke a leg bone and shoulder blade; a passenger suffered a broken neck and a brain bleed. The	East Harriet — 46th & Aldrich, just east of the lake	The main danger to a walker or runner: fast, unlit cars

driver, 19, ran and was arrested.

Southwest Voices; FOX 9; KSTP

27 Apr 2026

Police reported more than 30 vehicles damaged on the south side in eight hours.

CBS Minnesota

South Minneapolis — includes this area

Car vandals come in waves, one street at a time

21 Jun 2026

A homicide in Uptown; one man charged with two counts of second-degree murder. This is the closest killing to the home in the whole 12 months.

MPD charging bulletin; Star Tribune

Lyndale Ave S, Uptown — about 2.5 miles

Nearest violent crime, and not close

2025–26

Overnight car window-smashing reached Linden Hills, northwest of the lake. The 5th Precinct tied the pattern to a juvenile group working citywide.

Star Tribune; KSTP

Linden Hills — next door

Same wave pattern as the May break-ins

13 Jul 2026 on

Sewer rebuild on Oliver Avenue (50th to the parkway) and W 50th Street (Oliver to Penn). Runs into next summer.

Southwest Voices; City of Minneapolis

On the running route

Changed lighting, footing, and detours all winter

These are the nearest of 18 events inside the five-mile ring.

The rest sit three to four miles out and did not reach this neighborhood: a mass shooting near Loring Park on 2 September, three shootings along Lake Street on 14–15 September 2025, and two people shot by federal agents in January. They are listed in full in the long-form assessment.

1	ON FOOT	Fast, unlit vehicles — not people	HIGH		The one serious incident this year was a stolen car running a stop sign at 80 mph before dawn. Police no longer chase stolen cars unless a violent felony is involved, so these vehicles keep moving. The break-in crews work at night, target parked cars, and stay away from people.
2	BEFORE SUNRISE	Thin police coverage at 05:30	HIGH		Park Police coverage of the lake is lightest in winter mornings, and it is a different department from the one that covers the home. Do not count on help arriving fast if something happens in the dark.
3	ALL WINTER	Construction on the route	WATCH		The Oliver Avenue and W 50th Street sewer work runs into 2027. Expect dark stretches, detours, and uneven ground on part of the route through the dark months.
4	PREDICTABLE	Same route, same time, every day	WATCH		A fixed 05:30 run on a fixed route is the easiest thing to change — and the change that lowers this report's score the most. Vary the day, the time, and the direction.
5	BREAK-IN CREWS	They avoid people — don't confront	LOW		The window-smash crews disperse from people. A man four miles from here died in May after confronting two people stealing his car. If you cross paths with one: distance and disengagement, never confrontation.

THE PROPERTY

MODERATE

Property crime exposure; no violence on record at the address

● The listing is the biggest exposure.

Interior photos and the floor plan are online for anyone to study, tied to the street address. During showings and open houses, lock away or remove jewelry, documents, medications, and small electronics.

MLS #7050178

● Six heated garage spaces

(attached four-car plus detached two-car) are the largest day-to-day target: deadbolt the garage-to-house doors, shield the emergency release cords, and never leave remotes in parked vehicles.

MLS #7050178

● The house fronts the parkway with an open lakeside approach.

Package and mail theft are the neighborhood pattern — use a secure box or prompt pickup, with a camera on the porch.

● No incident at the address itself was found in public reporting from the last 12 months.

- REC 01

Running

Move the 05:30 run past sunrise. This single change takes the rating from Moderate (37) to Low (27). Nothing else moves the score this much.
- REC 02

Running

If you run in the dark anyway: lit streets next to houses, not the unlit lakeside and band shell stretches. Phone and ID on you; someone knows your route and return time. Light and reflective kit; one ear free of headphones; face traffic.
- REC 03

Running

Break the routine. Change the route and start time day to day, and use the posted walking detours around the construction on Oliver Avenue and W 50th Street.
- REC 04

The Home

De-risk showings while the home is listed. Agent-escorted tours only; valuables locked or off-site; no lockbox access left unsupervised.
- REC 05

The Home

Close the garage gap. Deadbolt garage-to-house doors, shield release cords, remotes out of parked cars, and a camera on each garage and the parkway approach.
- REC 06

Anytime

If approached: distance and light. Move toward houses, call 911. For smashed cars or suspicious idling vehicles, use 612-348-2345 — reports are what build the pattern record.

WHAT THE NEIGHBORHOOD FEELS LIKE

- LAKE HARRIET LOOP

1,600+ reviews

Busy and well-used in daylight. The walking loop stays active from morning to evening. The most common public complaint is crowds and parking — not crime.
- RESIDENT QUOTE

After spring break-ins

“We think we live in a bubble here, but I guess not.” — a Linden Hills resident, after the overnight car break-ins. The break-in wave, not violence, is what unsettled the neighborhood this year.
- NEIGHBORHOOD GROUPS

2026 agenda

Parks, not crime. The local association and press spent 2026 on the Lynnhurst Park plan, the wading pool, sewer work, and Porchfest. That is what a low-crime neighborhood looks like from the inside.
- NOT CHECKED

Needs your login

Nextdoor and neighborhood Reddit threads are behind logins, so the resident chatter layer was not read. Also open: the state's Level 3 offender search for the address, and a records request to the Park Police for early-morning patrol hours on the lake. None of these change the rating, but they would sharpen it.

WHAT THE 12-MONTH RULE LEAVES OUT

- READ THIS

Holding to the last 12 months removes the closest thing on record to the exact question being asked. In September 2015 a solo runner was grabbed from behind and chased at 5:30 a.m. on West Lake Harriet Parkway near Sheridan Avenue South — same time, same place, same activity. The rule also removes a run of escalating incidents on this lake in July 2017, and a jogger struck by a car on this parkway in November 2020. Those three are the most relevant events that exist for this location. The 12-month picture is less informative about the question, not safer.

WCCO / CBS Minnesota; Star Tribune
- AND THIS

“Nothing reported” is not “nothing happened.” The clean record on the lake path means no incident reached a source we can read. It is not proof none occurred, and it cannot become proof until the police records requests come back. The city's own incident-level crime data would settle it and could not be reached during this work. Treat the clean record as encouraging, not as a guarantee.

EMERGENCY NUMBERS

Emergency — Any Phone

Police / Fire / Medical	911
Poison Control	800-222-1222
Nearest Level I trauma center	HCMC · 701 Park Ave

On a pre-dawn run near the lake, expect slower response. Know the nearest cross street so you can give a location.

Police — Non-Emergency

Police response, non-urgent	612-348-2345
MPD tip line (no response needed)	612-673-5335
MPD 5th Precinct direct	612-673-5705
City services · 311	311 · 7a–7p Mon–Fri

Use 612-348-2345, not 311, before 7 a.m. 311 is closed at the hour you run. Report smashed windows and suspicious idling vehicles the same morning — these reports are what build the pattern record that earns your block extra patrol.

Home Safety

Smoke / CO alarms	Test monthly
Fire extinguisher	Kitchen + each level
Meeting point & escape plan	Household knows it

Worth keeping current regardless of the crime picture. This assessment did not measure fire or CO risk and takes no position on how it compares.

Prepared by Protective Intelligence & Investigations | Best Buy | Reference ID: 2026-RSA-001

Classification: CONFIDENTIAL // PROPRIETARY // ATTORNEY WORK PRODUCT

Evidence: events occurring 14 Sep 2025 – 14 Sep 2026 within ~5 miles of the home. Publication date does not qualify an item; only the event date does. Every item was checked against an original report, a step that removed six items that read as current but were years old.
