

Annex A — Media & Online Sentiment

Companion to PI-2026-RSA-001 · 4889 E Lake Harriet Parkway, Minneapolis, MN 55419

DOCUMENT	ASSESSMENT WINDOW	DATE OF ISSUE	SUPERSEDES
PI-2026-RSA-001-A · Rev B	14 Sep 2025 – 14 Sep 2026	14 Sep 2026	Rev A (withdrawn)

CORRECTION NOTICE — READ FIRST

REV A CONTAINED A MISDATED STATISTIC. REV A IS WITHDRAWN.

Withdrawn claim: "5 of the 7 carjackings in the neighborhoods ringing Lake Harriet occurred between November 14 and 25" — presented in Rev A as an in-window figure.

Finding: the statistic is from **November 2021**, roughly four years outside the assessment window. It should never have appeared in a trailing-365-day product.

Basis for the correction. The originating Southwest Voices piece dates its own comparison cluster to "a ten-day stretch of November 2021" and cites Kingfield carjackings on 8, 14, 15 and 16 November. Three independently dated sources place the surrounding carjacking wave in the same period: Axios Twin Cities (9 Nov 2021), MinnPost "Carjackings up 38% in Minneapolis in 2021" (Nov 2021), and the Star Tribune's 2021 carjackings-by-neighborhood map. [\[S\]](#)

Residual uncertainty, stated plainly. The Southwest Voices article itself could not be opened from this environment — outbound access to southwestvoices.news is blocked by network policy. The 2021 dating therefore rests on corroborating dated sources, not on direct inspection of the byline. Confidence is high but the tag is [\[S\]](#), not [\[V\]](#). **Direct verification of that byline remains an open item.**

Net effect on the assessment: no carjacking cluster is attributable to the assessment window. The overnight vehicle-break-in pattern is a *separate* finding, independently verified, in-window, and unaffected by this correction.

IN-WINDOW MEDIA FINDINGS — RETAINED

DATE	ITEM	SOURCE	BEARING ON THE RUN
Aug 2026 (late)	≥87 vehicles damaged in one night across 9 Minneapolis locations, 2–7 a.m.; no arrests announced at the time	Star Tribune; KSTP [V]	None direct. Parked-vehicle crime
2026 (ongoing)	200+ vehicle-damage cases in latest wave; teenager arrested, two children cited; three detained aged 11–16	Star Tribune; KSTP [V]	None direct. Category A only
Winter–spr 2026	Minneapolis car theft up ~25%; second-worst winter on record after 2023	Star Tribune [V]	None direct
2025–2026	Break-in sprees reach Linden Hills, just NW of Lake Harriet; 5th Pct investigations head attributes to one juvenile group active citywide	Star Tribune; KSTP [V]	Proximity only
1 Aug 2026	"Raise the Age" takes effect — under-13s cannot be charged, prosecuted or detained; no exceptions	Star Tribune; CBS MN [V]	Predicts persistence
1 Aug 2026	MCCA midyear: Mpls rape +17.8%, agg assault +12.8% YoY — both against national declines	MCCA report; KSTP [V]	Most relevant citywide signal
Sep 2026	BCA amends 2025 UCR: statewide murders 130 → 132; Champlin agg assaults added	dps.mn.gov [V]	Cite amended figures
2 Sep 2026	Loring Park mass shooting — 2 killed, suspect dead, 6 injured incl. officers	MPR News; City of Mpls [V]	Excluded — 1st Pct, 4 mi

HISTORICAL INCIDENTS — ALL OUTSIDE THE WINDOW, RETAINED FOR PATTERN ONLY

DATE	INCIDENT	WEIGHT
Sep 2015	Solo runner grabbed from behind and briefly chased, 5:30 a.m., W. Lake Harriet Pkwy near Sheridan Ave S	Exact time/place/activity match. Single point, >10 yrs old. Establishes feasibility, not frequency [V]
Oct 2023	Officer-involved shooting, Lake Harriet band shell boat launch, ~11:56 p.m.; Park Police chief called the location "extremely isolated"	The <i>isolation</i> characterisation is the durable finding, not the event [V]

Apr 2023	Two vehicle-based robberies minutes apart, midday, 4500 block Aldrich Ave S (~6 blocks off the lake)	Midday, vehicle-borne. Not pre-dawn relevant [V]
Jul 2017	~9 indecent-exposure / grab reports across Harriet–Nokomis over several weeks; final two escalated to contact	Shows escalation pattern in this park corridor [V]

PUBLIC-WEB SENTIMENT [A]

The path reads as **safe and busy**. The recurring public complaint about Lake Harriet is *crowding*, not danger — a materially different signal from a corridor residents avoid. Against that, coverage of the break-in wave captured the tension directly:

"We think we live in a bubble here, but I guess not." — Linden Hills resident, following a neighborhood break-in

One national piece (NBC, citing FBI framing) notes that assaults on runners frequently occur in *daylight* and taper in the early-morning hours — a genuine counterweight to darkness-based intuition, and one this assessment does not discard. It cuts against, not for, the pre-dawn concern. It is also national and general; it is not evidence about this parkway.

RESIDENT-FORUM LAYER — NOT COLLECTED

This layer remains entirely open. It was not collected, and nothing in this annex should be read as covering it. Nextdoor sits behind a login wall; Reddit requires a real browser session. Neither is reachable from this environment: no browser-automation MCP carrying the owner's authenticated cookies is wired up, and the network policy blocks `nextdoor.com` and `reddit.com` outright at the egress proxy. Chromium is installed locally but has no network route and no session. **The owner must run these in their own browser.**

Nextdoor (logged in, 55419): Lake Harriet Parkway · runner · jogger · prowler · car break-in · window smashed · package · porch · suspicious · catalytic

Reddit (via Google, real browser): `site:reddit.com/r/minneapolis` `Lynnhurst` · `"Lake Harriet"` `safe` · `"Lake Harriet"` `running` · `"5th precinct"` · `site:reddit.com/r/TwinCities` `Lynnhurst` OR `"East Harriet"`

Capture rule for every hit: record the **date** and whether the account is **firsthand or repost/rumor**. Those two fields decide the weight. In-window and firsthand → retain. Older than the window, or hearsay → discard. Applying this rule at collection time is what prevents a repeat of the carjacking error above.

BEST LOCAL SOURCE IDENTIFIED

southwestvoices.news — a working Southwest Minneapolis newsroom covering 5th Precinct public safety using City of Minneapolis data, with an explicit anti-fear-mongering editorial stance. It covers East Harriet, Lynnhurst, Fulton and Linden Hills by name and maintains per-neighborhood sections (`/east-harriet/` , `/linden-hills/`) plus a public-safety tag. **It is the highest-value remaining open source for this address** — and, per the correction above, the one whose article dates must be checked individually rather than trusted from a search summary. Not fetchable from this environment.

Source tags. [V] verified primary · [S] reliable secondary · [A] analysis · [?] gap. Consumer crime-score aggregators (CrimeGrade, AreaVibes, NeighborhoodScout, minneapoliscrime.com, Safemap) produced mutually inconsistent figures and are excluded throughout; primary sources and reputable press only. No source, statistic, URL or contact in this document is asserted without a traceable basis; where verification was incomplete it is tagged rather than smoothed over.
Standing caveat. Absence of news coverage is not confirmation of safety. Media sentiment measures what was reported and discussed — not what occurred.
